the front of the house collaped. The water rose so high my dads truck flooded passed us and my mother could no longer touch the ground. My dad had me on his shoulders. We went next door & climbed into the attic. The were other people there one lady was blind. The attic began to collaps and she fell in the water and she could not swim. My brother jumped in to save her and my dad pulled her up. The were animals in the attic as well our dog Pit my mother. We had to sit still for four hours. Ants were every where. And my mother cried. four hours later the water went down it came up to the attic. My dad had to walk 3miles to get someone to rescue us and bring us to another friends. We borrowed a truck and went to check on our house, but could not get there. Road were closed and everything was destroyed. a couple of days later we went to my house to find our house was under water in the attic we lost everything. Our house, cars, content, clothes and toys, swimming pool, swingsett, trampoline etc... we had nothing but the clothes on our back. and our lives. Thank you Jesus for saving our lives and thank you for cooking.

Love
